Introduction

Introduction

Introduction

Health Careers is a group of companies that specialises in education and systems to develop the careers of healthcare professionals around the world.

The Health Careers Group embraces latest technologies and collaborative tools in the design and delivery of its healthcare education and training programs.

This approach allows Health Careers to create new opportunities for students around the world to develop and enhance their skills, and for Governments and healthcare organisations to more effectively develop the future health workforce.

About the Company

Health Careers provides you with the skills and knowledge to get ahead in your career. We offer work-ready education for those seeking first-time healthcare training, as well as those already in the field who are seeking to up-skill or reskill themselves. We are committed to delivering quality education using the latest collaborative tools to improve patient safety and outcomes.

Our vision is to become a global provider of healthcare education and research. We will achieve this by working closely with industry and offering curriculum and education programs that are delivered to suit the needs of students, and by recognising that work, learning and life should be able to coexist together.

Health Careers comprises three main divisions, with several subdivisions:

1

Education & Research Division

- IHNA - Institute of Health and Nursing Australia
- IHM - Institute of Health & Management Pty. Ltd.
- HCLA - Health Careers Language Academy
- Health Careers Institute Pvt. Ltd.
- GNLA - Global Nursing Leadership Academy
- HCI Learning Hub
- HCI Health Innovation Hub
- Health Careers International Pty. Ltd. - Dubai
- Health Careers International Pty. Ltd. - Philippines

2

Software Division

- Edusystems Australia Pty. Ltd.
- MWT Technologies Pvt. Ltd.

3

International Education Recruitment Consultancy Division

- MWT Education Consultancy Pvt. Ltd.
- MWT Education Consultancy - Australia

4

Investment Division

- Health Careers Investments Pty. Ltd. - Australia

5

Export Division

- Maxworth International Pty. Ltd. - Australia
- Maxworth India Pvt. Ltd. - India

6

Residential Care Division

- HCI Residential Care & Wellness Centre (India) Pvt. Ltd.

Online and flexible learning, supported by simulation training in a nursing laboratory and professional work placements at health-care facilities allows our students to balance their study and work commitments. Our Board of Studies brings together experts from business and health to oversee and advise management and the academic staff. The Board ensures our programs remain relevant to industry, meet the high expectations of students and satisfy the changing requirements of industry.

Our Investments Division specialises in the international minerals and metals trading industry, and is today one of the leading importers and distributors of industrial minerals in Australia, India, Asia and the Middle East.

Our approach is encapsulated in our core values of Innovation, Caring and Excellence (ICE) which we apply to every aspect from course development through to student support. We are excited by this vision as we strive to deliver the highest quality education for the health and nursing sectors.

Company Strategy

Purpose

Health Education and Global Wellbeing

Mission Statement

Borderless Education, Global Recognition.

Vision

To become a global provider of healthcare education, employment and research.

Philosophy

Jobs are the primary source of wealth that sustains individuals and families; the building blocks of society. Creating a supportive organisation entails an emphasis on training and development, family support, career growth and the provision of lifelong opportunities for career progression through organisational growth.

The provision of quality educational outcomes is also fundamental to supporting the personal and career development of students and graduates.

The world is increasingly globalized and interconnected therefore education must transcend borders and address changes in the needs

of students and respond to global trends as well as local developments.

Linking and partnering with educational institutions and organisations that share HCI's global aspirations and are aligned with our philosophy is key to making that mission a reality.

That same philosophy is manifest in HCI's core values: Innovation, Caring and Excellence.

- **Student Experience:** Striving to deliver an exceptional educational experience for our students;
- **Employer of choice:** To be recognised by our staff and the industry as an employer of choice;
- **Internationalisation:** Expand course delivery and employment opportunities internationally through the HCI Learning Hubs;
- **Stakeholder engagement:** To develop contextualised healthcare education programs that meet the current and future needs of industry and the healthcare workforce; and
- **Innovation:** Innovate, and be forward thinking in the design and delivery of our programs and services.

Core Values

IHNA's core values of Innovation, Caring and Excellence (ICE) apply to every aspect of our work from course development, through to student support.

Innovation • Caring • Excellence

Innovation

By adapting to a global world and making use of new technology as it becomes available, Health Careers is able to grow and thrive in times that less adaptable organisations would consider adverse. By doing this, we build career opportunities and deliver unique learning opportunities for employees and students.

Caring

Improving lives takes time. HCl builds ongoing, lasting relationships with its students and employees. Once you join the organisation you are a member of the HCl community and HCl has a stake in your future. In an age of disposable employees, HCl dares to be different and treats you as a person, not just a number.

Excellence

For the Health Careers mission to succeed, we strive continually to improve standards and practices in the pursuit of excellence. While competitors do the minimum needed to meet requirements, HCl strives to add value and foster genuine quality in the experience provided to employees and students.

We are excited by this vision and strive to deliver the highest quality education for the health and nursing sectors.

Social Enterprise

Health Careers intends to be a Social Enterprise focusing on supporting young men and women in rural areas by providing health-care education and employment opportunities. We also aim to work with the broader community in rural and remote areas to engage in healthcare awareness campaigns and health promotions.

We aim to engage in:

- Aboriginal support programs;
- Health checks at community events; and
- Awareness campaigns in rural India for communicable diseases.

Benefits of Studying and Partnering with Health Careers

McMillan Woods Global Awards 2018 in "Nursing & Healthcare Training Excellence."

When you choose to study or partner with Health Careers, you are choosing a recognized award-winning training provider. Health Careers is the 2018 winner of McMillan Woods Global Awards 2018 in "Nursing & Healthcare Training Excellence, 2016 winner of the Excellence in International Education - Private Education and Training category in the Victorian International Education Awards 2016.

Career focused education and placement assistance opens the door for students to pursue many exciting opportunities in the healthcare sector around the world.

State of the Art Education and Simulation Centres

Healthcare is a skill based profession. State of the art simulation centres at every Health Careers campus and Learning Hub allow our students to practice and assess their skills and techniques in the latest ward conditions, using patient simulator manikins. Students can perform various procedures to improve their skills in a safe and realistic environment and are trained in basic and advanced techniques of patient care.

Practising in a realistic simulated environment improves patient safety by honing the skills and knowledge of students.

Developing skills to Work World-Wide

Health Careers is committed to creating new opportunities for students around the world to develop and enhance their skills and for Governments and health-care organisations to more effectively develop the future health workforce.

Students at Health Careers benefit from a world-class education and training experience designed to challenge and develop their competency and their capability to work in a variety of healthcare settings. Education programs and resources are regularly benchmarked against the best practice from around the world to ensure they remain relevant and up-to-date.

Flexible Delivery with 24/7 Student Support

Health Careers curriculum is delivered in modes that suit the needs of students and recognises that work, learning and life should be able to coexist with all programs available via a blended delivery. HCI Learning Hubs may also provide support for students in their home country and offer simulation facilities, host regular webinars and group discussions and provide support for students as they undertake their study.

Students may also access 24/7 support services via online, telephone, Skype or email. This means that regardless of the time of day, or where you are in the world, a Health Careers team member is available with one-on-one guidance and support.

Training Partners: Staffing Solutions and Systems

We connect our training partners with our worldwide network of students and healthcare professionals so they may deliver curriculum that meets the needs of industry and students in their country. Health Careers considers education to be one of the most important elements in developing the service delivery capability of the healthcare sector.

As a recognised and highly regarded provider of quality education, training and management systems, Health Careers works with leading academics and researchers, and partners with industry to develop future workforce and training strategies.

She has played a key role in various aspects of course development including the quality check and course delivery guidelines. Shali has also been a major contributor in external audits for accreditation and re-accreditation of nursing courses and certificate courses by the Australian Nursing and Midwifery Accreditation Council (ANMAC), Australian Skills Quality Authority (ASQA), and ISO accreditation, at Melbourne, Sydney and Perth campuses. Shali has been a key member of the IHNA team since the inception of the organisation, and has a Master of Orthopaedic Nursing from Victoria University. Shali has also recently completed the Diploma of Vocational Education and Training, and the Diploma of Training Design and Development.

Awards

McMillan Woods Global Awards **2018**

Health Careers International Pty. Ltd. (IHNA), have been awarded the prestigious McMillan Woods Global Awards "Nursing & Healthcare Training Excellence" Award 2018.

Mr. Kunnumpurath Bijo, CEO of Health Careers International received the award on Wednesday, 23rd May 2018, at McMillan Woods Global Awards ceremony held at Shangri-La Hotel, Kuala Lumpur, Malaysia.

The award is a recognition of global leaders as "The leaders behind the industries". The key element of the award is integrity which is the essence of good governance and is an immeasurable value trait for the McMillan Woods Global Awards.

Health Careers vision is to become a global provider of healthcare education and research. In pursuit of this vision, Health Careers is committed to delivering quality VET education globally. This award is a recognition of Health Careers commitment to quality education in health and nursing sector.

We would like to thank all IHNA staff and students for their participation and support for the achieving this award.

**Finalist - Victorian
International Education
Award**

2018

**Winner - Victorian
International Education
Award**

2016

The Institute of Health and Nursing Australia (IHNA), has been recognised for Excellence in International Education – Private Education and Training, in The Victorian International Education Awards.

The awards are an initiative of the Victorian Government to support the international education sector, promote best practice in the sector and raise awareness of its benefits to the broader community. The award was presented by the Governor of Victoria, The Honourable Linda Dessau AM at a ceremony at Government House in Melbourne.

IHNA has been privileged to train over 7,000 students since it commenced operations in

2007. This award recognises the growing reputation of IHNA in Australia and in the international arena as the institute has increased its delivery of high quality curriculum and training programs to India, Malaysia, Philippines and the Middle East.

The award joins our recognition earlier this year as a Finalist in the 2016 Victorian Training Awards, and caps off a productive year for all of the team at Health Careers.

Our Registrations

IHNA is a member of ACPET (Australian Council for Private Education and Training). ACPET is the industry association representing quality independent providers of education. ACPET's focus on high standards means only quality independent training organisations are admitted as members. These members must adhere to the ACPET Code of Ethics and are encouraged and rewarded for regularly participating in professional development activities.

Velg Training is Australia's leading provider of Vocational Education and Training (VET) professional development and consulting services. Having served the VET community for over 10 years, Velg Training's national client base represents Registered Training Organisations (RTOs) across Australia, including VET practitioners, teachers, trainers, assessors, TAFE teaching professionals, enterprise trainers and assessors, industry experts and other VET professionals.

IHNA and IHM are listed on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS), that lists all Australian education providers who can offer courses to people studying in Australia on student visas.

Health Careers participates with the Australian Government in the Future Unlimited program to promote Australian education internationally.

IHNA's nursing programs are accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) as they conform to the quality standards for nursing education.

IHNA Courses are eligible for funding under the Skills First Program run by Department of Education and Training in Victoria.

Australian Government
Australian Skills Quality Authority

ASQA, the Australian Skills Quality Authority is the national regulator for Australia’s vocational education and training sector, and is responsible for regulating courses and training providers. IHNA is accredited by the Australian Skills Quality Authority (ASQA), certifying that nationally approved quality standards are met.

The Australian Private Hospitals Association (APHA) is the peak national body representing private hospital interests in Australia. IHNA is a Gold Member of APHA, and works closely with private hospitals for clinical placements for our students.

IHNA has achieved the ISO 9001 certification which means our systems and practices, facilities, people, training services and equipment meet the highest standards for excellence in quality and delivery.

Government of Western Australia
Department of Training and Workforce Development

IHNA’s courses are eligible for Jobs and Skills WA subsidies. The State Government has implemented Jobs and Skills WA to ensure that people gain skills that lead to employment in areas required by industry.

Australian Government
Tertiary Education Quality and Standards Agency

The Institute of Health & Management (IHM) is accredited by the Tertiary Education Quality and Standards Agency (TE-QSA) for the delivery of specialised postgraduate courses which encompass health, management, research, and nursing specialties.

Registration for International Operations

MWT Education Consultancy is a member of the Kerala Chamber of Commerce and Industry, a premier institute that promotes and develops trade and industry in Kerala. KCCI functions as a central forum for business people from all industries and endeavours to transform Kerala to a world-class economy.

The Health Careers Group of companies, comprising MWT Education Consultancy, MWT Technologies and the Health Careers Institute, India have been awarded the ISO 9001:2015 certification. This is in recognition of the consistent delivery of products and services meeting customer needs with high standards of quality, and conforming to all statutory and regulatory requirements mandated by the ISO standard.

Health Careers Institute is an organisational member of the Quality Council of India (QCI). We have adopted and adhered to the quality standards in healthcare laid down by the council, and conduct ourselves according to the NBQP code of ethics.

MWT Education Consultancy is a member of the Association of Australian Representatives in India (AAERI). The AAERI is responsible for ensuring the credibility of education agents who recruit Indian students for Australian education and training institutions.

Our Partners

As part of its endeavour to promote healthcare education and develop talent in this sector, Health Careers has formed a collaboration with Apollo Medskills, the skills training division of Apollo Hospitals in India. Apollo MedSkills is a joint venture set up by Apollo Hospitals and the National Skill Development Corporation (NSDC). Students who are trained by Health Careers may pursue an international career in nursing as Health Careers programs are recognised internationally.

As part of its endeavour to promote healthcare education and develop talent in this sector, Health Careers has formed a collaboration with Apollo Medskills, the skills training division of Apollo Hospitals in India. Apollo MedSkills is a joint venture set up by Apollo Hospitals and the National Skill Development Corporation (NSDC). Students who are trained by Health Careers may pursue an international career in nursing as Health Careers programs are recognised internationally.

Health Careers has entered into an agreement with the Occupational English Test (OET) for the development of English language courses and teaching materials developed specifically for healthcare professionals. This collaboration will help nurses to prepare for and meet the rigorous English language requirements of English-speaking healthcare environments.

Health Careers International has partnered with Health Careers Institute, to deliver healthcare courses and accredited training to individuals and institutes in India. Together with Health Careers Institute, Health Careers International aims to offer comprehensive educational programs which are designed to improve the health and well being of local communities and support excellence in healthcare.

Articulation Pathways

IHNA's comprehensive healthcare courses are designed for anyone seeking nationally recognised skills and knowledge in various healthcare streams.

Our objective

Health Careers programs are aimed at exploring, managing and advancing collaborations with leading Australian Universities and TAFEs that provide pathway opportunities for IHNA students to pursue further studies in nursing, health sciences and health administration.

In order to achieve this Health Careers is focused on:

- Exploring ways to leverage strengths through partnership and looking for mutually beneficial opportunities that support Health Careers goals of teaching and public service;
- Delivering quality training and assessment through our qualified educators;
- Facilitating pathway options for students, from Certificate III through Certificate IV to Diploma levels and to a University degree or even a PhD;
- Guiding Health Careers students towards gaining entry or applying for credits towards a University degree after completion of a certificate, diploma or advanced diploma in a field similar to the course they wish to study at the University; and
- Entering into licensing agreements with Universities that allow Health Careers to deliver University programs through our campuses.

Third Party Partnerships

Health Careers partners with other registered training organisations and institutions for the development and delivery of high quality education and training. All programs meet the training and assessment standards required in the Standards of Registered Training Organisations 2015 (SRTTO 2015).

Our partnerships offer quality education opportunities that lead to careers in the healthcare industry. We do this by:

Training resources available for purchase or via subscription:

E-Resources and Assessment

Learning Management System (Qualifications);

Units of Competency

Professional Development.

Partnerships with Nursing Homes and Hospitals

Health Careers is a specialist healthcare training provider that partners with healthcare providers in the development of training solutions to enhance their competency and capacity. As a registered training provider, Health Careers may adopt an accredited program to establish a base-level of competency from which to further develop skills, or prepare a customised program to meet specific training or service delivery requirements.

Our education and training programs are available in blended and online delivery modes. We place an emphasis on delivering nationally accredited education and Professional Development programs that are relevant to industry and develop skills and competency to meet the challenges of tomorrow.

Benefits for the Facility

Students will learn through blended delivery which allows them to fit study in their busy lives and other commitments;

Upskill staff to new qualifications;

Improved staff retention and engagement; and

Students have access to Health Careers' bank of online professional development programs;

Training points accrued from all Health Careers training programs.

Verification of competency conducted by qualified trainers and assessors;

Benefits for Employees

- Upgrade to attain new qualification;
- No loss of income - Study while you continue working in your current job;
- Get a head start! - Gain credit transfer or Recognition of Prior Learning (RPL) for previous study and work place experience;
- Up-skill to the HLT54115 Diploma of Nursing via blended delivery, while continuing to work; and
- Support is available through the Aged Care Education and Training Incentive Program from the Department of Social Services.

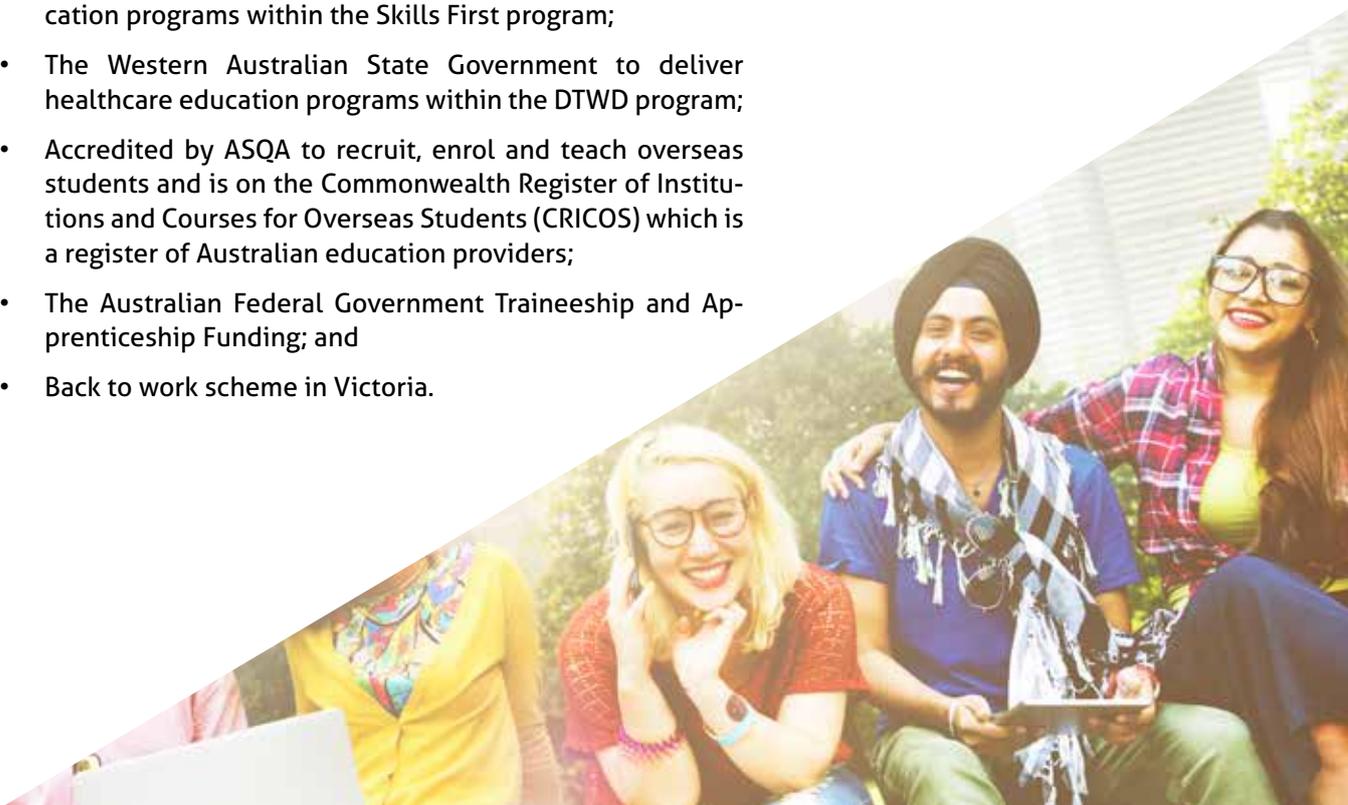

Why Partner with Health Careers

- Health Careers is registered with ASQA (Australian Skills Quality Authority) for vocational training and TEQSA (Tertiary Education Quality Standards Agency) for post graduate programs;
- Our partners may have confidence they are joining a recognised and highly regarded education provider with strong governance and risk management procedures;
- Direct pathway within Health Careers for students from Certificate III in Individual Support (Ageing & Disability) to the Diploma of Nursing;
- Reduced requirement for time-off and time away for training;
- Health Careers has in place a motivated and experienced management team with direct experience in the education, health and early childhood sectors nationally and internationally;
- Health Career's Academic Board and Board of Studies comprises of experts from health, education and business sectors;
- Health Careers has in place an extensive network of over 200 clinical partners nationally;
- Health Careers is actively expanding its campus network and the programs it has on scope; and
- National and international presence with campuses and partnerships in India, The Philippines, Dubai and Malaysia.

Funding is Available

Health Careers is a recognised and highly regarded education provider. Health Careers is contracted by:

- The Victorian State Government to deliver healthcare education programs within the Skills First program;
- The Western Australian State Government to deliver healthcare education programs within the DTWD program;
- Accredited by ASQA to recruit, enrol and teach overseas students and is on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) which is a register of Australian education providers;
- The Australian Federal Government Traineeship and Apprenticeship Funding; and
- Back to work scheme in Victoria.

Continuing Professional Development

CPD programs may be delivered via blended delivery mode in which the theory component of the CPD training is completed by students on-line and simulation based training and assessment is conducted at your facility or centre by our trainers:

- Reduces time-off and time away from the centre with simulation based training and assessment at your facility or centre;
- Health Careers currently offers a number of CPD programs including; Fire and Safety, Infection control, Manual Handling, Medication Administration, CPR and Anaphylaxis and new programs as they arise;
- Face-to-Face Professional Development / Short courses are also available:
 - » HLTAID003 - Provide First Aid
 - » HLTEEN007 - Administer and Monitor Medicines and Intravenous Therapy
 - » HLTAID001 - Provide Cardiopulmonary Resuscitation
- Our dedicated in-house curriculum development teams provide the opportunity to customise programs to meet the needs of industry. Health Careers is able to customise or contextualise your existing training, or develop new training modules to meet specific needs; and
- Health Careers also offers the Knowledge Hub, our customized learning management system, as the Learner Management system for all partnering organisations.

Job Placement Through Health Careers Staffing Solutions (HCSS)

We provide Placement Assistance for all graduates of Health Careers through HCSS. We assist partnering organisations to recruit our graduates through:

- Advertising current vacancies through our Knowledge Hub to reach students;
- Career guidance with our staff who assist in shortlisting potential candidates and submitting their CV to facilities;
- Conducting campus interviews and job promotions;
- Providing options to organize clinical placement for selected students at the facility for improved induction as part of the selection process;
- Providing specialty-nursing programs for nursing graduates to join Specialised wards as required by the facilities. This includes postgraduate certificate programs to be completed prior to commencing employment in specialty wards;
- Internship options for new graduates; and
- Graduate entry program partnerships for new nursing graduates.

Partnerships with International Providers

Who we are

Health Careers commenced operations in 2004 and today employs 250 staff. Health Careers has trained over 10,000 students and offers Vocational and Post Graduate education, training and continuing professional development programs from campuses in Melbourne, Sydney, Perth and Cochin (India) and through partnerships internationally in India, the Philippines and the Gulf Cooperation Council (GCC).

Health Careers comprehensive and career focused healthcare courses are designed to meet the needs of students and the demands of industry. All programs are developed utilising a systematic, quality driven ap-

proach and are designed to provide a balanced approach to theoretical knowledge and clinical skills. The courses encompass various topics in Nursing, Health and Community Services, Professional Development and Skill Sets.

The Institute of Health and Nursing (IHNA) is the vocational and training division of Health Careers. IHNA's focus is firmly on the development and delivery of quality education, training and management systems for the healthcare sector. IHNA has an extensive library of online books and resources which allows students to balance their work and study commitments.

The Institute of Health & Management (IHM) is the Higher education division of Health Careers and specialises in the provision of post-graduate higher education courses in nursing, nursing specialisations and management. IHM is accredited by the Tertiary Education Quality and Standards Agency, Australia (TEQSA).

The HCI Learning Hub opens the door to a world-wide network of exciting new curricula and resources for healthcare students and professionals around the world, all delivered at times that suit the student – their work and their other commitments.

What we offer

Health Careers provides high quality education and training programs based on the Australian Qualifications Framework (AQF).

As an internationally focused education and training provider we work closely with healthcare providers and education and training institutions for the delivery of these programs and, in the development of customised programs to meet the needs of industry. We work with our international partners by providing:

1

Curricula and resources that are based on the AQF and provide students with an international standard education experience and recognised skills;

2

Clinical and corporate management systems;

3

Opportunities for increasing the skills and competency of nurses through Continued Professional Education based on the Australian curriculum developed by an internationally recognised institute;

4

Certification in line with national regulation of Vocational Education and Training (VET) accredited by Australian Skills Quality Authority (ASQA) and higher education accredited by Tertiary Education Quality Standards Authority (TEQSA);

5

Blended delivery that allows students to balance their work and study commitments; and

6

Online access to course units, resources, student forums and support and, information systems.

Our objective

Health Careers is focused on the development and delivery of quality education, training and management systems for the healthcare sector. Our vision is to become a global provider of health care education and research within Australia and internationally.

To achieve this vision, Health Careers is constantly evaluating new opportunities and forming new partnerships with leading hospitals and healthcare providers and education and training institutions.

Health Careers embraces the latest technologies and collaborative tools in the design and delivery of its healthcare education and training programs. This approach helps to create new opportunities for students around the world to develop and enhance their skills, as well as for Governments and healthcare organisations to develop the future health workforce.

IHNA[®]
Institute of Health and Nursing Australia

Institute of Health and Nursing Australia

CRICOS: 03386G | RTO: 21985

The Premier Nursing Institute

The Institute of Health and Nursing Australia (IHNA) is one of Australia's leading providers of comprehensive health and nursing education.

About

The Institute of Health and Nursing Australia (IHNA) is a Registered Training Organisation (RTO) approved by the Australian Skills Quality Authority (ASQA) to provide education and training courses in the fields of nursing and healthcare.

As one of Australia's leading providers of comprehensive health and nursing education, IHNA's high quality healthcare courses provide a multitude of varied education pathways that are complemented by continuing professional education and upskilling programs. These work ready programs are

available at campuses in Perth, Melbourne, Sydney. The programs are offered via blended delivery which allows students to balance their study and work commitments. IHNA's competency is in the development and delivery of vocational education and professional development, and includes:

- Developing partnerships in India, Malaysia and the Philippines to deliver Australian healthcare qualifications;
- Working with hospitals and healthcare organisations to deliver Certificate, Diploma, complemented by professional development and staff development programs;
- Developing tailored and specialised curricula, online teaching resources and contextualised education for individual organizations, education institutions and hospitals; and
- Development and delivery of re-skilling and upskilling programs for healthcare staff.

IHNA is a fast-growing, dynamic and quality-driven institution committed to continuous improvement and is working diligently to develop, implement and deliver courses and professional development programs. IHNA is a member of ACPET (Australian Council for Private Education and Training).

IHM
Institute of Health & Management

Institute of Health & Management

CRICOS: 03407G | HEP ID: PRV 14040

Postgraduate Nursing Institute

The Institute of Health & Management is a postgraduate institute specialising in nursing, health management and research and is supported by high level professional development and consultancies.

About

The Institute of Health & Management (IHM) is accredited in Australia by the Tertiary Education Quality and Standards Agency (TEQSA).

IHM understands that its students come from diverse backgrounds, and includes Australian and overseas trained healthcare professionals, new students and students looking to continue their learning goals by re-entering the healthcare sector after a time away from the workforce.

Founded in February 2012, IHM's focus is on the development and delivery of quality postgraduate higher education courses for nurses. English Language Intensive Courses for Overseas Students (ELICOS). Our programs now include General English and English for Academic Purposes (EAP) for healthcare professionals.

Courses are available in online and classroom based delivery modes and are created by experienced nursing academics and

clinicians with extensive experience in online teaching and learning.

The Australian Workforce Productivity Agency anticipates a growing need for additional qualifications for nurses over the next two decades. IHM is working to raise the level of qualifications in the healthcare sector (especially in nursing specialisation), consistent with this emerging demand and to increase the scope of practice for healthcare workers.

GNLA[®]
Global Nursing Leadership Academy

Global Nursing Leadership Academy

Acquire New Certifications in Nursing

Global Nursing Leadership Academy – an institution that allows nurses to connect, collaborate and share their competencies and regulatory requirements globally.

About

The ultimate goal of nursing education is always to positively impact on the quality of patient care through effective nursing leadership. Ethical and informed nursing can extend the boundaries of nursing practice and transform the health system of the community. Nursing leadership plays a pivotal

role in this transformation.

To advance this, Health Careers has set up the Global Nursing Leadership Academy (GNLA) an institution that allows nurses to connect, collaborate and share their competencies and regulatory requirements globally. At GNLA we are working as-

siduously to help nurses up-skill and enhance their competencies by offering a wide range of short continuing nursing education courses. Also GNLA offers a set of specialised and accredited programs through by our global nursing education partners and government bodies.

HCI Education Hub

Your Learning Partner

A HCI Education Hub opens the door to a world-wide network of exciting new curricula and resources all delivered at times that suit the student.

About

At Health Careers we believe that Work, Learning and Life should co-exist. We realise that a majority of students both work and study, so tutorials delivered in the middle of a shift or in the middle of the night are of little value.

A HCI Learning Hub will open the door to a worldwide network of exciting new curricula and resources all delivered at times that suit the student – their work and their other commitments. Our tutorials feature leading educators and experts from around the

world and are available at convenient times across different time zones.

Nursing and healthcare is a team-based profession requiring professionals who are educated about working in teams, collaboration and the development of strong inter-personal skills.

Diversity and the capability to work across nationalities and different health settings will be fundamental skills upon which the future health system will be built.

At a HCI Education Hub students are able to utilise the latest resources, participate in tutorials or join a group discussion about curriculum or a particular area of study, or join other students from around the world to complete a group assignment.

Students will benefit from being exposed to the knowledge and commitment of qualified and experienced educators and clinicians who genuinely understand nursing.

Health Careers's accredited blended education programs are developed to meet the AQF (Australian Qualifications Framework). Vocational programs through to post-graduate qualifications are available from leading Australian Institutes:

Graduate Certificate and Graduate Diploma programs and Professional Development and non-award programs are delivered by the Institute of Health & Management (IHM).

Certificate and Diploma courses delivered by the Institute of Health and Nursing Australia (IHNA).

As your learning partner, we believe that all people, no matter their location, status or personal situation should have the opportunity to study and learn so they may participate in their local community, seek employment and exploit new opportunities for a better future.

Facilities

At HCI Learning Hubs, students can use state-of-the-art facilities to study in a quiet environment, or take part in group learning and discussions. They can join workshops and edutorials, and participate in Webinars, forums or hosted panels that are led by leading experts and tutors. All these services are available at flexible times to suit the students.

- Utilise the latest computers and equipment to self-study in a quiet and 'study ready' environment including access to high speed internet and online systems
- Undertake research via HCI Learning Hub and eResources sourced from around the world
- Join workshops and edutorials or participate in group learning and discussions delivered by speakers from industry
- Participate in a program of tutorials from leading experts and tutors, including:
 - » Webinars and forums or hosted panels to suit different time zones and cultures;
 - » Connect with international education programs and resources with world class blended options and form peer and friendship groups that will last forever; and
 - » Network and meet healthcare industry leaders and attend regular support sessions by local academics trained by Health Careers.
- Undertake internationally accredited non-award programs and nursing speciality Professional Development programs to improve job prospects locally and internationally
- Open pathway options to study in Australia or participate in student exchange programs.

HCI Health Innovation Hub
Enhancing Life through Innovation

HCI Health Innovation Hub

Enhancing Life Through Innovation

Health Careers International (HCI) specialises in providing quality, careers focused education to develop the careers of healthcare professionals around the world. HCI's commitment to quality and workready education delivered utilising the latest collaborative tools has allowed it to become one of Australia's leading educators for the healthcare sector.

Our vision is to become a flagship provider of healthcare education and to be the first private healthcare university in Australia by 2025. We will achieve this by working closely with industry and offering curriculum and education programs that are delivered in ways that suits the needs of students and recognises that work, learning and life should be able to coexist together.

Innovation is a very deep-rooted notion. The term has made its way into healthcare:

- A new idea, device, or method; and
- The act or process of introducing new ideas, devices, or methods.

Innovations in healthcare fall under the extensive spectrum of social innovations, which aim to solve social issues. The World Health Organization (WHO) explains that 'health innovation' improves the efficiency, effectiveness, quality, sustainability, safety, and/or affordability of healthcare.

This definition includes 'new or improved' health strategies, practices, structures,

products and technologies, services, and provision methods that result in enhanced healthcare.

Developments in research, patient contentment, education, and access to care are additional factors to keep in mind. Simply put, the ultimate goal of health innovation is to improve our ability to meet public and personal healthcare needs and demands by

optimising the performance of the health system.

Innovations in healthcare should yield accessible solutions and improvements in health policies, systems, products, technologies, services, and delivery methods, in order to improve treatment, diagnosis, education, outreach, prevention, research quality and delivery, and access to healthcare.

Overview

We demarcated innovation hubs as dwellings that are functioning to determine, improve, test, and/or spread new models of care delivery - in pharmaceutical, Diagnostic tools, hospitals, clinics, and patients' homes. The innovations they test may be inter-

nally developed or adopted from elsewhere. The "Innovation Hub" brings together people who have innovative ideas for public health interventions. It brings experienced professionals with the range of expertise needed to refine and progress the ideas

using an online video conferencing platform.

The Innovation Hub also takes steps to give visibility to new ideas and uses crowd funding mechanisms to raise initial funds for these new innovations.

Key Focus Area

- Understanding basis for practice improvement
- Artificial intelligence and decision support systems to support safe, evidencebased precision healthcare
- Creating new technologies and models of care to enable genuinely consumer driven care
- Designing models of care which provide improved patient safety and quality
- Understanding the relationship between health system complexity and health system performance.

EduSystems Australia

Extend Your Reach

EduSystems Australia develops innovative online applications and enterprise systems that extend the capability of an organisation to manage its compliance and quality systems.

About

EduSystems Australia Pty. Ltd. is a division of Health Careers and was established in 2011 as a result of Health Careers's extensive search for a technology solution to provide a single and dynamic platform upon which to manage the group's hundreds of daily interactions with the intention of capturing those interactions within an integrated compliance and quality system.

EduSystem's development and delivery team utilises the Knowledge Hub as a stand-alone, or the basis for an integrated, compliance management system. This enables some of the following:

- Project planning and management of enterprise scale quality assurance and compliance management systems for education institutions, healthcare providers and other healthcare organisations;
- Project planning and design of e-learning curriculum and learner management systems, including:
 - » Hosting, customisation of content and the delivery of e-learning resources;
- Project planning and management to integrate the staff and student management systems onto a single platform for better management of regulatory compliance, including the integration of delivery platforms for:
 - » Accredited education courses;
 - » Continuing professional development and staff development programs; and
 - » Specified staff development activities.

The Knowledge Hub is an enterprise wide platform for managing the information flow and compliance of an organisation through a single access point.

Education Consultancy

MWT Education Consultancy

Gateway to Global Healthcare Education & Employment

MWT Education Consultancy is a leading International educational consultancy in India. We provide best in class consultation services in all the sectors of education including nursing, IT, engineering, medicine, healthcare, commerce, pure sciences and much more.

About

Having commenced its operation in 2002, MWT Education Consultancy has become a leading International educational consultancy in India. We provide excellent consultation services in all the sectors of education including nursing, IT, engineering, medicine, healthcare, commerce, pure sciences and much more. Our one-stop career centre focuses on overseas education, student recruitment, career guidance, placement and settlement services. Our top of the range training and personal development courses help to build up personality and self-confidence in the students and career aspirants. We also provide counselling and superior coaching for students who are aiming for excellence in International standardized tests.

In 2017 January, all the MWT Group companies came together under the umbrella of our parent group Health Careers International, based in Australia. MWT Education Consultancy in conjunction with HCI Group, Australia will henceforth be representing universities and colleges globally for health science program enrolments, and offering twinning programs through Health Careers and institutes in In-

dia. We will also be offering job placements for healthcare staff nationally and globally. Our core vision is to impart the highest quality service to our candidates, thus fulfilling their dreams and aspirations of attaining higher education overseas. We provide our candidates with comprehensive and personalized career and education counseling that focuses on their skills, talents and individual aspirations.

Having partnered with leading universities and colleges in Australia, New Zealand, Ireland, the UK, Canada, Germany and Singapore. The MWT team can offer guidance at every stage, beginning with IELTS and similar training required for the admission process, career counseling and allied course support. A vast network of affiliates worldwide helps MWT graduates maximize their professional growth and career prospects.

Our growing number of satisfied students stands as testimony to our hard work and success. The MWT Group of companies has been recognized for excellence in quality management, and has been awarded the prestigious ISO 9001:2015 certification.

Maxworth International

Maximum Value for your Business

About

The Maxworth Group is an international minerals and metals trading company. The company commenced operations in April 2011 and has since grown to become one of the leading importers and distributors of industrial minerals in Australia, India, Asia and the Middle East.

Maxworth International specializes in the sourcing, processing and value addition of industrial minerals such

as Garnet, Ilmenite, Sillimanite, PS Ball and the sourcing, and processing of ferrous and non-ferrous metals. The company has its own processing and shipping facilities located in Malaysia and in Southern India.

Maxworth is committed to sourcing minerals and metals that are consistent in quality and grade and are delivered on-time – every time. Since 2011, we have built up

a strong unified supply network and distribution chain.

The recently opened warehouse and storage facility within the Visakhapatnam Special Economic Zone in Southern India has allowed Maxworth to further reduce delivery times. The facility also allows for the reprocessing of garnet and mineral products to meet the specific requirements of customers.

Wellness Centre (India) Pvt. Ltd.**

Hospital@Home
C o m p a s s i o n a t e C a r e

HCI Residential Care & Wellness Centre (India)

Compassionate Care

The preparation to cherish old age begins with children at home. Parents need to guide their children on elderly care for them to feel honored about taking care of their ageing parents.

About

However, factual data shows that it is becoming extremely difficult for people to take time off from their daily schedules to spare time for the top-most priority – their parent's senescence. And the final option remains to employ the services of a caregiver to even when the gap analysis results are not up to the mark.

HCI Residential Care and Wellness Centre comes as a promising solution to address this gap through personalised Home Care Nursing

services. We understand how important a crucial break is for carers. Our renowned customer focused care will result in enhancing the quality of life with emphasis on healthy living in aged population. All our care homes are purpose-built, render high quality facilities and provide the highest standards of old age care.

Elderly patients have age specific, complex and multifaceted needs. They are affected in different ways by the combined effects of the

ageing process, the disease process and the environment, which challenge their quality of life.

The elderly need nursing care which should be provided by a nurse who is knowledgeable, skilled, vigilant, sensitive, proactive, respectful and positively motivated to care the aged. We believe that the period of senescence deserves dignity with respect, we provide that with sensitivity and compassion through our care homes.

HCI Campuses and Facilities

Australia's Sunniest City - Perth

The Perth campus is conveniently located in the vibrant Perth CBD in Western Australia (WA), Australia's largest State. Blessed with beautiful beaches, blue skies and great weather, Perth makes the perfect base for a unique Western Australian experience.

Multicultural Melbourne

As Australia's leading city in cultural diversity, Melbourne is the capital of Victoria (VIC). From snow skiing to surfing, shopping to world recognized cuisine this city offers something for everyone. IHNA's Melbourne campus is easily accessible from around the city via public transport.

Cosmopolitan Sydney

Sydney is the capital of New South Wales (NSW) and presents evidence of its early history as Australia's first settlement. It has developed over 200 years into a vibrant modern city situated in one of the world's most scenic environments and offers a truly "Australian" lifestyle experience.

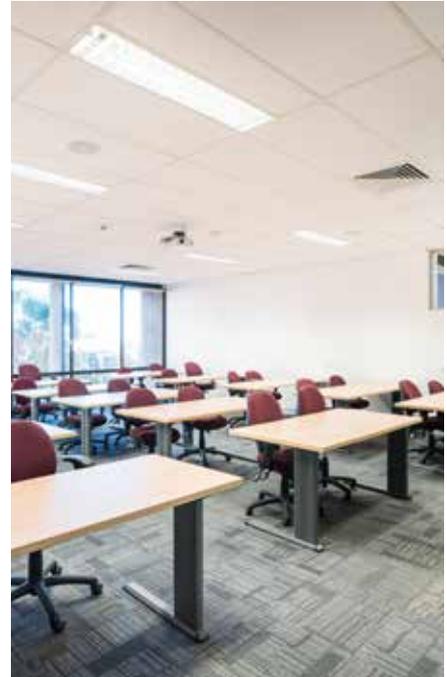

The Sydney campus is located in Parramatta and serviced by excellent public transport.

Australian Education

There are many advantages to an Australian education. The educational experience and lifestyle offered to students is exceptional. The style of teaching is contemporary and encourages independence, creativity and innovative thinking rather than the traditional system of learning by rote. As a result more young people now opt to undertake further study in Australia. Students are encouraged to originate practical solutions to problems preparing them for the future when they have to deal with future changes.
